Advertise Your Profession.

Advertising is the legitimate condutor of any legitimate business. No one occupation or set of men has a monopoly of it by any code of common sense. When properly used and developed to its capacity for good it is as honorable and as dignified in its application to the professions as it is to the merchant, manufacturer, publisher, playwright, the artist or the pulpit. Like anything else, it can be put to wrong ends; but that should not discredit advertising as a proper factor for good purposes. As well denounce religion because there are hypocrites, or condemn water as a drink because men are drowned in the bay. Because rascals and disreputable members of the profession have invoked its aid does not limit its usefulness when put to good ends.

The professional man must, in the beginning of his practice, bend his energies to building up a large circle of acquaintances. In the ordinary course of events, and following the usual habits of all professional men, he is obscure for the first ten years of his practice. After that time, if fortune favors him, he rises with more or less rapidity to a position which is at once profitable and honorable.—A. L. Teele in Printers' Ink.

A Delicate Question.

During a lull in the court proceedings at Auburn the other day, Sheriff Lamb propounded a legal question based on an actual occurrence recently in East Livermore. Two neighbors in that town own rams. One of the rams jumped over the fence into the field of the neighbor and while there injured one of the cattle which was grazing in the field. The neighbor caught the ram and tied him in a barn where his own ram was tied. As he happened to give him too much slack rope the ram got at the more securely tied ram belonging to the man who had tied him and killed him. After having performed this feat he managed, through the extra amount of rope, to get so entangled as to get hanged by the neck until he was dead. The legal question involved was as to who should pay for the ram—the neighbor who, by letting his ram loose, caused all the trouble, or the neighbor who, by tying him in the barn so carelessly, caused the death of both animals.—Bangor News.

What the Sailor Men Eat.

Times are changed now on board ships. When I was a boy before the mast I had to take a tin pannikin and pot to the galley, get a lump of tough salt horse, a pot of weak tea and molasses and eat wherever I had a show. Nowadays the sailors have a boy to wait on them, get canned roast beef and spuds every other day and the best of salt beef and pork. If the coffee ain't strong enough or sweet enough they growl at the cook.—Interview with Capt. Sennett.

The Duke of Edinburgh has one of the largest collections of postage stamps in England. There is one private collection in the kingdom that is valued at \$250,000.

The Virginia Enterprise seems to consider it a part of its every day duty, and very likely it is, to defend the Legislature and apologize for its shortcomings. Yesterday it blew some of its vapors in the direction of the JOURNAL, because this paper published some facts about the Legislature. It does not attempt to refute or disprove what the JOURNAL said of the Legislature, but asserts, what the readers of this paper know to be false, that it was determined from the beginning to quarrel with the Legislature.

A few facts, however, prove more than all the opinions and unsubstantiated assertions the Enterprise has published or may publish in its apologies for the Legislature.

It is a fact, as the readers of the Enterprise are aware, that when the Legislature had been in session forty days it could not name a single act passed by that body of public benefit or even public interest, except that providing for a legislative fund of \$55,000. It is also a fact that the Legislature, instead of setting an example of reform and economy, as its members were pledged to do, made no reduction in the per diem of members, who drew eight dollars each per day, for the full sixty days allowed by the Constitution, including Sunday days, though one House adjourned for four days at a time and neither House met on Saturday until near the close of the session. The Legislature also refused to canvass the vote for a Constitutional Convention, though the electors complied with the strict letter of the law recommending them to vote on the proposition, and in this violated their official oath, and utterly and absolutely ignored the will of the people in not calling a Constitutional Convention. This was an abuse of authority unparalleled by a legislative body in the United States, and of itself sufficient to brand the majority with the seal of disapproval of every American citizen, whether Republican or Democrat, who believes that the will of the people, legally expressed, should be respected. How a newspaper or individual that pretends to believe in a republican form of government, can apologize for, or even condone, such an offense on the part of a legislative body claiming to be the representatives of the people, is beyond the comprehension of the public and can be accounted for in the case of the Enterprise only upon the hypothesis that it has been hypnotized by the bosses.

SOMEWHAT SENSATIONAL.

Telegraphic dispatches state that about two thousand Italians working on the Pittsburg, Ohio Valley and Cincinnati Railroad are organizing, arming and drilling, in compliance with orders issued from Chicago, the object being to avenge the death of the Sicilians lynched at New Orleans.

This rumor lacks confirmation and was doubtless circulated to create a sensation. Respectable and law-abiding Italian citizens, like all other good citizens, deplore the tragedy at New Orleans, and the circumstances which caused it. The men who were shot to death at New Orleans were not killed because they were Italians, but because they were implicated in the assassination of the Chief of Police of that city. They were charged with being outlaws in the country they left, and, it appears, were not improved in their morals by becoming American citizens. Native-born Americans have been lynched by their fellow-citizens for less serious crimes than that which the Sicilians were accused of perpetrating at New Orleans.

An Italian, in the San Francisco Alta, takes a common sense view of the New Orleans tragedy, which he says was not an uprising against Italians as Italians, but a manifestation of popular indignation against murderers as murderers, and, while not approving of mob law, if the uprising is to be regarded as the beginning of the end of the Mafia in this country there are hundreds of Italians who will rejoice in the result.

No doubt if the person who tampered with the jury who tried the murderers is caught he will meet the fate of the murderers, and the mob will not stop to inquire as to his nationality.

ENTIRELY TOO CREDULOUS.

The Gazette, if sincere in its professions that the bosses have lost their hold upon the Legislature, is entirely too credulous, but as it misquotes the record to substantiate what it alleges, the presumption is that it is not so gullible as it would have its readers believe. It says of C. C. Wallace:

"He opposed the Australian ballot law—it passed; he favored the repeal of the 12 o'clock closing law—it was knocked silly; he was opposed to the passage of the railroad bill—it became a law."

Both parties were pledged to pass the Australian ballot law. A Democrat introduced the bill to redeem the pledges of his party, and it passed the Senate. It was kept in Committee in the House until the bosses became alarmed at the earnestness of the public in demanding that it become a law, and they allowed it to pass.

A bill to release Eureka county, where Mr. Wallace resides, from the operations of the 12 o'clock closing law passed both Houses. Was that, in the elegant diction of the Gazette, "Knocking it silly?" The railroad bill was a boss measure, fully as much as that creating a State Board of Assessors, and it became a law. As on the resolution to canvass the vote for a Constitutional Convention, the bosses may have pretended to entertain different views on the subject, but in doing so, deceived nobody, with the possible exception of the Gazette.

President Harrison Will Come West if State Affairs Will Permit—The California Legislative Investigation—Investigating the Sugar Trust.

A New Light on the Court Martial.

Special to the Journal. OMAHA, March 21.—Captain Catley, in his defense in the court martial trial to-day, introduced a document which threw new light on the finding of the court martial on which he was convicted in 1880. In that trial Captain Catley was convicted of cowardice for retreating before the fire of a small band of Indians in the Idaho mountains. Captain Catley introduced a letter from Judge Advocate General Dunn to the Secretary of War, on the strength of which President Hayes set aside the finding of the court martial. In the letter Dunn stated that Catley was in an unexplored country in the heart of a canon, where there was no chance for escape on either side when he was fired upon by hostile Indians. He knew nothing of the force of the enemy, and there was nothing left for him to do but retreat. The Judge Advocate General held that there was nothing in the evidence to sustain a charge of cowardice, and recommended that the finding be overruled.

It was upon this recommendation that President Hayes acted, Captain Catley being unable to get from Washington the papers which he claimed would show he had been disabled for active field service for more than two years. Adjournment was taken until Monday.

Investigating.

Special to the Journal. SACRAMENTO, March 21.—The legislative committee continued its investigation into the allegations of the attempt at bribery in connection with the Senatorial contest, this morning, O. B. Fogle, paying teller of the Crocker-Woolworth Bank, identified the wrappers which were found in the waste basket of the State Librarian's room, and said he had seen them in his bank on the 16th inst. The figures on them were in his own handwriting. The wrappers had been around a package of greenbacks received from the Fresno Loan & Savings Bank on the 16th inst., and \$7,500 was paid out that afternoon to John B. Jones, on a check of the Southern Pacific railroad, made out on the Nevada Bank. Witness testified that Jones lived in San Francisco and believed the latter was a messenger for the railroad company.

Two other witnesses were examined on minor points, and Attorney General Hart then said it would be necessary to summon Jones as a witness, and he suggested it would be proper for the committee at this time to obtain from the Senate an increase of power to compel any further witnesses to testify in case they were unwilling to do so.

The committee decided to have all of the witnesses subpoenaed to be here Monday afternoon and adjourned to meet at that time.

Discord Among Chicago Democrats.

Special to the Journal. CHICAGO (Ill.), March 21.—The Democratic City Convention for the nomination of a candidate for Mayor was the scene of a sensation this morning. Before the convention was called to order 100 delegates, supporters of ex-Mayor Harrison, decided to bolt the convention, and at once repaired to another hall. The remaining delegates will renominate Cregier. The disaffection of the Harrisonites makes it certain that there will be two Democratic tickets in the field. Harrison already has the support of the German Democrats and the Personal Rights' League.

Warlike Legislators.

Special to the Journal. SAN FRANCISCO, March 21.—The Post's Sacramento special says: Assemblyman Bledsoe of Humboldt has procured a warrant for the arrest of Assemblyman Rowe of Santa Clara on a charge of assault, for the latter's action at the time of the introduction into the Assembly yesterday of the report of the committee investigating the Bruner charges. The Mayor of Sacramento, it is stated, has granted permission for Bledsoe, who is a small man, to carry firearms.

Unprotected Exports.

Special to the Journal. WASHINGTON, March 21.—The exports of beef, hog and dairy products from the United States during the month of February, as reported by the Chief of Bureau Statistics, were valued at \$11,821,000, an increase of \$210,000 as compared with the corresponding month of last year.

An Alliance Between France and Russia.

Special to the Journal. BERLIN, March 21.—Dispatches from St. Petersburg convey the unwelcome information, pointing to the conclusion of a formal treaty of alliance between France and Russia. Until recently the Czar resisted all attempts of going beyond intent with France. A draft of the treaty prepared in Paris in 1887, and approved by De Giers, Grand Duke Nicholas, Vladimir and other Chiefs of the Imperial Council on the part of Russia, and which was then rejected by the Czar, but was again presented to him after the late elections in France had confirmed the permanency of a Republican form of Government in that country, and was again rejected, has finally received his sanction. As an event of such immense international importance as this cannot be kept secret it is expected that De Giers will cause some informal notification to reach the Government of Dreibund as corollary of the Alliance. The Czar, it is stated has signed a decree, bestowing upon President Carnot the Grand Cordons of the Order of St. Andrew, the highest Russian decoration and one limited to members of the Imperial family. This decoration has hitherto been conferred as an exceptional honor on sovereigns nearly connected with the Russian throne.

No open advice can be obtained regarding the conclusion of the treaty.

Crop Prospects.

Special to the Journal. WASHINGTON, March 21.—The weekly weather crop bulletin, issued by the Signal Service, says: The cold weather continued during the week generally throughout the Northern States, over which the ground is generally frozen, and spring work is delayed. In the Northwest the ground is generally covered with snow, which is disappearing rapidly and which will furnish sufficient moisture in the spring wheat region to assure an excellent start for a crop. The weather was favorable throughout the fall wheat region, and the prospects excellent. In New England the weather is unfavorable for sugar-making but favorable for fruit, the latter conditions extending over the fruit regions of the Middle Atlantic States.

The Deadlock in the Nebraska Senate.

Special to the Journal. LINCOLN, Neb., March 21.—The deadlock in the Senate continues. The Senators declare their intention of insisting on their action, one side for and one against the Maximum Freight Rate bill, until the close of the session if necessary. Opponents of the bill are bound to defeat it. Senator Taylor, who ran away, it is alleged, to escape voting on the bill, was located in Council Bluffs, Iowa, this afternoon. The Sergeant-at-Arms tried to get requisition papers but Governor Boyd was on the road to Omaha.

Friends of the bill to-night threatened to swear out a warrant charging Taylor with receiving a bribe. To-night costs are being taken into the Senate Chamber.

A Walking Farce.

Special to the Journal. NEW YORK, March 21.—The greatest fizzle of a six-day walk ever held came to a close to-night at 10 o'clock. The receipts amount to only \$9,000. This, after paying the first prize money, will be divided amongst the six that covered 625 miles. The following is the score: Hughes, 558 miles 2 laps; Bennett, 540 miles 6 laps; Moore, 530 miles 1 lap; Hegleman, 626 miles 3 laps; Harty, 525 miles 5 laps; Nor- emmo, 525 miles; Peach, 300.

Warring Factions.

Special to the Journal. DUBLIN, March 21.—While David Sheehy, Member of Parliament for Galway, was addressing a meeting at Sligo to-day, Timothy Harrington and other Parnellite members attempted to storm the platform. The crowd immediately attacked Harrington. He was thrown upon the ground and severely handled in the fight which ensued. Finally the police separated the combatants.

The Sick Improving.

Special to the Journal. WASHINGTON, March 21.—Secretary Blaine continues to improve and it is thought will be able to beat his desk in the State Department by Monday. General Spauld is gaining strength and Representative Springer is considerably improved. No fears are entertained by their friends.

Where Barrett Will be Buried.

Special to the Journal. NEW YORK, March 21.—The funeral of Lawrence Barrett will take place Monday morning from the Windsor Hotel. The body will be taken to Cohasset Beach, near Boston, where it will be interred in the cemetery there, near Barrett's country seat.

Bledsoe, not Bruner.

SAN FRANCISCO, March 21.—To the EDITOR:—Please substitute the name of Assemblyman Bledsoe of Humboldt instead of Bruner's name in Post's Sacramento special day report, about warrant being issued for Assemblyman Lowe.

Business Before Pleasure.

Special to the Journal. WASHINGTON, March 21.—Private Secretary Halford said to-day that the President is going west if he can, but will abandon the trip if the State public business makes it necessary.

Investigating the Sugar Trust.

Special to the Journal. NEW YORK, March 21.—The State Senate Committee resumed the investigation this morning into the affairs of the Sugar Trust.

Death of Mrs. Ann M. Smith.

Special to the Journal. SPRINGFIELD, March 21.—Mrs. Ann M. Smith of this city, widow of C. M. Smith, died suddenly to-day in San Francisco, aged 65 years. She was a sister of Mrs. Abraham Lincoln and Mrs. Ninian W. Edwards.

Another Vessel Lost.

Special to the Journal. LONDON, March 21.—The Swedish ship Senator Weber, Captain Winck, from Cardiff March 9, for Rio Janeiro, foundered in the recent heavy gale which swept over England. Fourteen of the crew were lost.

Not Sold to Gould.

Special to the Journal. CHICAGO, March 21.—President Cable of the Rock Island Road said to-day, that so far as he knew there was no foundation for the rumored sale of the road to the Gould interest.

Death of General Johnston.

Special to the Journal. WASHINGTON, March 21.—General Joseph E. Johnston died shortly after 11 o'clock to-night.

NEW LAWS.

Acts of Special Interest to the Public.

An Act to amend an Act entitled "An Act fixing the time for the opening and closing of saloons and gaming houses," approved March 6, 1889. [Approved February 27, 1891.]

The People of the State of Nevada, represented in Senate and Assembly, do enact as follows:

SECTION 1. Section two of the above entitled Act is hereby amended so as to read as follows:

Section two. A violation of any of the provisions of this Act shall be deemed a misdemeanor, and upon conviction the offender shall be punished by a fine of not less than fifty dollars nor more than five hundred dollars, or by imprisonment in the county jail for a term not less than ten days nor more than six months, or by both such fine and imprisonment, and persons acting as servants, employees or agents shall be equally liable with their employers and principals.

An Act to prevent unnecessary delay in rendering judicial decisions by the courts of this State. [Approved March 5, 1891.] The People of the State of Nevada, represented in Senate and Assembly, do enact as follows:

SECTION 1. No Justice of the Supreme Court, nor Judge of the District Court in this State shall, after the first day of July, A. D. one thousand eight hundred and ninety-one, be allowed to draw or receive any monthly salary unless he shall take and subscribe an affidavit before an officer authorized to administer oaths that no cause in his court remains undecided that has been submitted for the period of ninety days.

SEC. 2. The said affidavit shall be filed with the State Controller, and shall constitute his authority for drawing and delivering the monthly salary warrant for any such Justice or Judge.

DEATH VALLEY.

Its Atmospheric Conditions to be Studied.

J. Clory of the United States Signal Service left Kansas City Thursday evening for the Pacific Coast. He is directed to proceed to Death Valley, in the southwestern part of the California Desert, and make a minute study of the atmospheric conditions and phenomena. The Signal Service has long been endeavoring to collect statistics regarding Death Valley, but on account of the supposed great danger of residence there has never ordered any one to make an investigation. Clory volunteered, and his services have been accepted. There in solitude, save for occasional visits of messengers from Keeler, Inyo county, sixty miles from the desert's edge, who will bring him food and water, Clory will look after the duties assigned him.

Death of General Johnson.

General Joseph E. Johnson died at 11 o'clock last night in Washington, D. C. He was born in Virginia in 1807. He graduated at West Point in 1829 and served in the Seminole war. During the Mexican war he served as Captain of the Topographical Engineers under General Scott, was twice wounded and was brevetted Colonel. In June, 1860, he became Quartermaster General, with the rank of Brigadier General of Staff. He entered the Confederate service in 1861 and served with distinction until the close of the war.

In a very judicious dietetic outline for reducing obesity, from ten to twenty drops of liquor potasse are given in a glass of water three times a day, and the food is largely composed of uncooked local fruits, lemons, oranges, succulent salad vegetables, acid wines, lean meat, white blooded fish, game, and poultry, lemonade, buttermilk, and tea and toast.

One peculiarity of the principal dances of savage nations is that in nearly every instance they imitate the movements of animals. This is evidenced in the buffalo and bear dances of the North American Indians, the bear dance of the Kamtchatskans and the kangaroo dance of the aboriginal Australians.

Bells are mostly cast from a composition of copper and tin, though other ingredients are often used. When the right proportions of these two metals are combined and reduced by intense heat and poured into the desired shape and size.

EXCITEMENT AT GLENBROOK.

The Whole Country Being Located for Mines.

Senator Sproule of Elko arrived last night from Lake Tahoe. He says the people of Glenbrook are wild with excitement over the discovery of rich gold-bearing quartz. Some weeks ago an old prospector discovered a gold-bearing lead. He showed a specimen of his discovery to the lumbermen, who looked upon him as a crazed old fellow. The ore assayed \$101 to the ton in gold, and the crank of two weeks ago is now looked upon as a wonderful man, and is in reality the only sane person at Glenbrook, the others being crazed with excitement. Men are out on snow shoes looking for quartz and the country for miles around is being located.

The Central Nevadan says: Battle Mountain girls are to organize an engagement and marriage club. Every time one of them has a gentleman escort to whom she is not engaged she is to pay 25 cents into the treasury. When a member becomes engaged she pays in \$5. When a member gets married the club presents her with \$100.

No monarchy has ever produced so many millionaires in so short a time as has the Republic of the United States. The New York Telegram says: New York City is nearly twice as many millionaires as either London or Paris, and probably no other municipality can teach them anything in the line of doing big taxes.

WHAT IS SCROFULA

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which develops ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "humors;" which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How Can It Be CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla. "My daughter Mary was afflicted with scrofulous sore neck from the time she was 22 months old till she became six years of age. Lumps formed in her neck, and one of them after growing to the size of a pigeon's egg, became a running sore for over three years. We gave her Hood's Sarsaparilla, when the lump and all indications of scrofula entirely disappeared, and now she seems to be a healthy child." J. S. CAMERON, Nauright, N. J. N. B. OPERA HOUSE DRY GOODS STORE.

To the Business Men and Citizens of the State of Nevada:

THE TIME HAS COME when I am compelled to plead my own cause in this boycotting business. First, I will acknowledge that I signed the first contract to close at 8 o'clock, also that I did all I could to carry it out and help the League; but as it has been my misfortune to have reverses in business, and as I was compelled to raise money for parties that I owe, I went to the Clerk's League at a meeting on two different occasions, and told them it would be impossible for me to close at 8 o'clock.

Now, when the League says I, on different occasions, violated my pledge, all I can say and prove, and that by Mr. Al Wilson, who is a member of the League, that it is FALSE, as Mr. Wilson has been in my employ since the contract was signed.

So far as my word is concerned, it is for the people to say, and not for the League to publish such trash to the entire State. I will further state that when the time comes that a few boys try to pull down and degrade a man when he has the misfortune that I have had, then it is high time to sell out and let the boys run the town.

Respectfully, C. W. BOOTON.

WEATHER FORECASTS.

Facts Ascertained by the Signal Service.

SAN FRANCISCO, March 18, 1891.

The branch office of the National Weather Service, Division of the Pacific, was opened at San Francisco, March 1, 1885, and is the only office of its kind in the country outside of the central office at Washington, D. C. It was established for the purpose of providing, in the most direct and practical manner, an opportunity for the people of the Pacific Coast to receive all of the benefits that may be derived from the work of the Signal Service. The main object was to prepare and distribute through the press (and by telegraph weather forecasts for the Pacific Coast States, and warn vessels of the approach of storms dangerous to shipping off the coast. Also to make special forecasts of rain, frosts, floods and local storms. Such work has been carried on at the central office in Washington many years for the eastern portion of the United States, and it was believed that the time had come for the organization of a

PACIFIC COAST WEATHER SERVICE.

With headquarters at the metropolis of the coast, and at a place centrally located for the convenient receipt and distribution of telegraphic reports. To properly apply the weather forecasts to definite areas of country, the Pacific Coast was divided into three districts, designated officially as follows: North Pacific Region, embracing Western Oregon and Western Washington; Middle Pacific Region, embracing the western portion of California north of parallel 37 degrees north, or an east and west line cutting the northern edge of the bay of Monterey; South Pacific Region, embracing the western portion of California south of parallel 37 degrees north. On May 1, 1886, an order was issued from Washington changing the districts to State areas, and thereafter the weather forecasts were made for the following regions: Washington, embracing the entire State; Oregon, embracing the entire State; Northern California, embracing that portion of the State north of the latitude of 36 degrees, or an east and west line passing through the central portion of Lake Tulare; Southern California, embracing that portion of the State south of the latitude of 36 degrees. There have been several changes in the hours at which the forecasts have been prepared for issue, dependent upon the hours of meteorological observation and convenience of the press.

OBSERVATIONS.

Are now taken throughout the United States at 8 A. M. and 8 P. M., 75th meridian time, which corresponds to 5 A. M. and 5 P. M., Pacific time. The weather forecasts are issued from the San Francisco office about 9:30 A. M. and 6:30 P. M. daily. An earlier hour cannot be selected because of the want of telegraphic facilities in concentrating the reports at San Francisco from all parts of the Pacific Coast States. The language of forecasts must largely conform to the official instructions issued from the central office at Washington.

FORECASTS OF TEMPERATURE.

Forecasts of higher or lower temperature are made each morning with reference to the expected minimum temperature of the following morning, and each evening with reference to the maximum temperature expected on the following afternoon. The forecasts of stationary temperature indicate a change of four degrees or less from March to October inclusive, and six degrees or less for the remaining months of the year. In the case of higher or lower temperature a change of one degree or more is sufficient to verify the forecast. A cold wave, in general terms, is defined to be a fall in temperature over an extensive area of 20 degrees in 24 hours, or 28 degrees in 48 hours and to the freezing point or below. Warnings of cold waves are issued when it is expected that the area affected will exceed 100,000 square miles in extent, and in well defined cases for a lesser area.

FORECASTS OF FAIR WEATHER.

Mean an entire absence of rainfall, but not necessarily an absence of clouds. Forecasts are usually made for a period of 24 hours, but whenever the meteorological conditions are so decided as to dominate the present and are expected to materially modify coming weather over any extensive part of the country, forecasts may be made for periods of 36, 48 and 72 hours. Generally speaking it is more difficult to forecast accurately the weather of Summer than that of Winter, because of the absence in the former season of well defined storm centers, most of the precipitation being the result of local changes in temperature and wind direction. For a similar reason it is more difficult to forecast the changes of a moderate storm than of those which attend a severe one, because in the latter case the laws of cyclonic development and progression are more closely adhered to, which permits the principles of weather forecasting to be applied with greater success.

WADSWORTH FLYERS.

Echoes From Down the River.

WADSWORTH, March 18, 1891.

Wadsworth is now in the superlative degree of dullness. January was dull, February was duller, and March is dullest. Business is absolutely at a standstill, deadlocked like the California Legislature and like the Nevada Legislature always ought to be; then it couldn't do any harm, and no good is ever expected of it. The Nevada Legislature reminds one of the quotation, from the Bible I think it is: "Blessed are they who expect nothing, for they shall not be disappointed." For surely if they did expect anything of good from our Legislature they would get what Paddy shot at. That is the way we feel down here in the suburbs, and want the world to know it, so, of course, publish it in the JOURNAL.

But to resume. We said Wadsworth was dull; so it is, and if things don't liven up a little before soon, the chances are ten to one that Tom Herman will fence us all in for a milk ranch before the Summer is over. The cows have about got possession of the town already.

About the only improvements we can note of late is over in Dodge's addition. Mr. Dodge has abandoned the idea of selling his property for town lots, and has fenced it in for a chicken ranch. He bids fair to make a success of this, his last enterprise, having started with a stock of three drakes and thirteen roosters—ducks and pullets to be secured later on.

We note that Mrs. Pierson, wife of Commissioner Pierson, who has been very low with pneumonia, is recovering slowly. Dr. Richardson is in attendance.

That St. Patrick's Day was very properly observed by all the sons and daughters of Erin. The stores were depleted early in the day of green ribbon, and a grand ball was given in honor of the Saint at Music Hall in the evening. Everybody was there and had lots of fun. Music by Washburn's string band of five pieces.

That the railroad boys propose giving a ball April 1st.

That Dr. Richardson has secured the position of reservation doctor for the Indians. They seem to be as numerous as ever.

That Dr. Jackman is talking of going to Washington State.

That Dr. Harmony has got a bran new red necktie, which he wears with the grace of a Russian Duke. Go it Doctor, the girls are looking at you.

That a man by the name of Jack Cape got his skull fractured by the kick of a horse out at Stillwater yesterday, and Dr. Harmony was telegraphed for to attend him. We haven't heard whether the horse was hurt or not.

That Mr. McPherson has moved out of the house he has occupied for twenty years, and now occupies his new purchase, being the late residence of Superintendent Whitted, and it is one of the prettiest places in town.

That Engineer Frank Hampton has bought the Silverwood place on Bridge street, and moved in as snug as a bug in a rug.

That Mr. Daviero has rented A. Dodge's house on Music Row.

That Mr. Sampson has purchased the corner lot next to the Wadsworth House, and proposes putting up a business block in the Spring. Mr. Sampson is an example of what industry and economy will accomplish. He came here a few years ago with a bunch of matches and a pocket knife, and now has more money invested in the town than Mr. Rothchilds, who keeps the tailor shop.

That Frank Robinson's new chop house seems to be doing a good business.

That William Jackson's restaurant has closed for repairs.

That Scotty Lee has adopted Ben Hill till he is of age.

That Parson Henry's horse ran away with the cart the other day. The last seen of the cart the swallows were building nests out of it. The parson got off with the loss of a new stovepipe hat.

That a wedding is on the tapis at an early date. The young man has lately returned from Sacramento with the necessary furniture.

Of Interest to Wool Growers.

The latest news from Australia is to the effect that serious trouble is resulting from a strike of sheep shearers. The police force cannot preserve order and a battery of artillery and a detachment of mounted infantry has been sent to the scene of the trouble. Two months heavy rain has caused heavy losses in sheep from worms and bilious fever, a disease similar to what is called pinkeye in horses. Official returns give the stock of sheep at 55,000,000. The price paid for shearing is 20 shillings (about \$5) per hundred. There are 10,000 shearers, many of whom are on a strike.

C. Haller, of Verdi, was in town yesterday.

Church Services.

The Congregational Church will hold its service at the McKissick Opera House this (Sunday) evening. Miss Flora Finlayson will be present and assist in the service of song, by rendering two or more vocal solos. A collection will be taken at the close, the proceeds to be applied toward laying the foundation of the proposed new church edifice.

Services at the Baptist Church at 11 A. M.; Sunday School at 12:15 P. M. There will be no service in the evening; the congregation will worship with the Congregationalists in the Opera House.

Trinity Church—Palm Sunday. Holy Communion at 9 A. M.; Morning Prayer and sermon at 11 A. M.; Sunday School at 12:30 P. M.; Evening Prayer at 7 P. M. Week-day services: Morning Prayer on Monday, Tuesday, Wednesday and Saturday, at 8 A. M.; Holy Communion on Thursday at 8 A. M.; Good Friday, Morning Prayer and sermon at 11 A. M., Communicants' meeting at 3 P. M.; Wednesday, 4 P. M., Evening Prayer and Bible Lesson; Saturday, 2 P. M., Easter Even. service.

Regular preaching services at the M. E. Church at 11 A. M. and 7 P. M. Morning subject, "Assurance;" evening theme, "Lessons for Palm Sunday." E. V. Fisher, Pastor.

Cured of Practical Joking.

Practical joking has had many follow-
ers among "great men," but the manner
in which Beethoven was cured of it
should be a lesson to all who still practice
the "art." The wife of a pianist in
Vienna was a great admirer of the com-
poser's works, and had set her heart on
getting a lock of his hair. She induced
her husband to get a mutual friend to
ask for it; but the friend, being a prac-
tical joker, instead of carrying out her
wishes, persuaded Beethoven, who also
was fond of a practical joke, to send her
a lock cut from a Billy goat's beard, the
hair of which in texture and color
slightly resembled that of the composer's.
The lady was very proud of her sup-
posed treasure, until another friend,
who knew the facts, informed her of the
trick, when she was so distressed that
her husband wrote an indignant letter to
Beethoven. The composer's dis-
courtesy to a lady being thus brought
home to him, he was so ashamed that he
immediately wrote a letter of apology,
inclosing a genuine lock of hair; and he
resolved never to be a party to such
jokes again.—New York Ledger.

What Is and Is Not Perpetual Motion.
As is generally known, a perpetual
motion machine is one to be moved by a
power furnished by the machine itself
and not from any source outside of it.
A mill or a clock run by the incessant
rise and fall of the tide is not perpetual
motion. Neither is a machine that runs
by the power of terrestrial or other mag-
netism, or of the wind, or of variations
in the weight of the atmosphere, or by
electricity coming from outside of the
machine, or by the force of heat coming
from the sun. A wheel that could al-
ways of itself keep more weight at one
side than the other and thus turn so
long as its materials lasted would be
perpetual motion, and such has been the
form of most of the machines invented
for the purpose.—Chicago Herald.

Contempt of Court.
A stranger once walked into a Massa-
chusetts court and spent some time
watching the proceedings. By and by a
man was brought up for contempt of
court and fined; whereupon the stranger
rose and said:
"How much was the fine?"
"Five dollars," replied the clerk.
"Well," said the stranger, laying down
the money, "if that's all, I'd like to fine
in. I've had a few hours' experience of
this court, and no one can feel a greater
contempt for it than I do, and I am will-
ing to pay for it."—Green Bag.

A Curious Eating Custom.
The Dyaks divide in pairs when the
hour arrives for taking food, the father
and mother at one platter, two sisters at
one and still two brothers at another.
When the family is not equally divided
as to sex a brother and sister may eat to-
gether, but this must always be the
youngest and oldest of the family.—St.
Louis Republic.
